Christmas tree
Origami Instructions

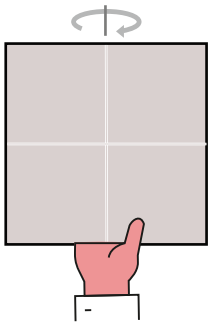

1 download, print and cut the square to start your tree

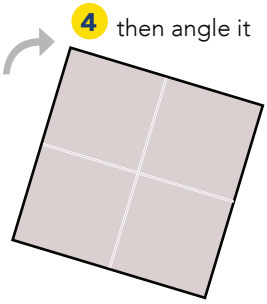

2 fold the print in 4

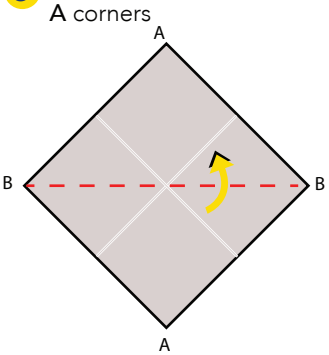

3 reverse your paper

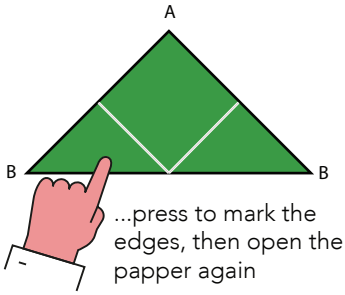

4 then angle it

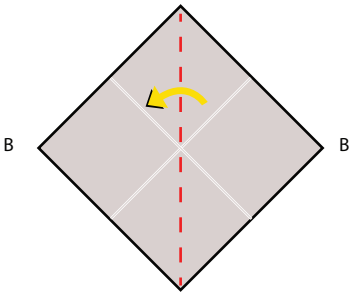

5 now fold again connecting A corners

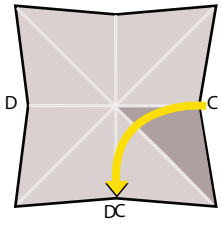

...press to mark the edges, then open the papper again

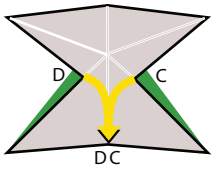

6 ...do the same connecting B corners

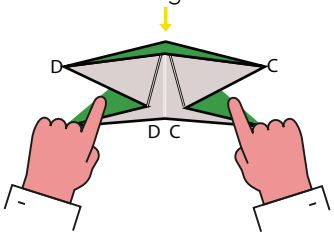

7 with the paper without tentions join the C contact points ...

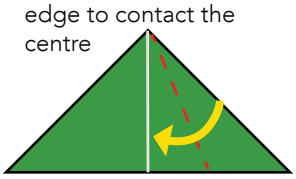

8 ...and D contact points simultaneously

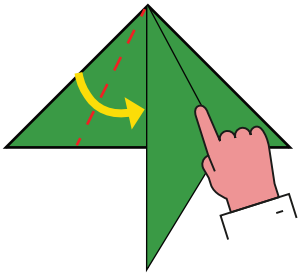

9 ...press to mark the edges until a folded triangle is formed

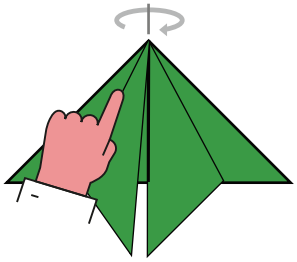

10 create a flap by folding edge to contact the centre

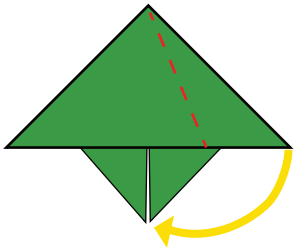

11 ... do the same on the left side

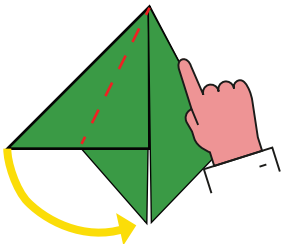

12 press the edges to mark and turn the art around

13 apply the same method used on the other side...

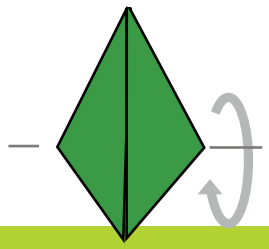

14 on both left and right sides until you end with a diamond shape

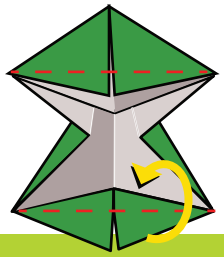

you can add a star on top

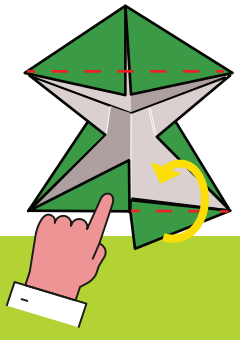

15 turn so you can see the bottom of your art

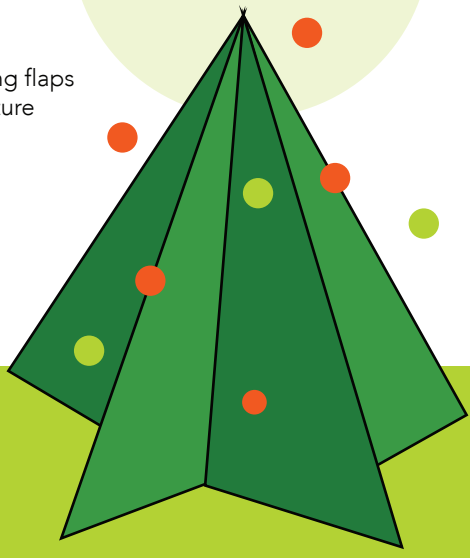

16 now fold the diamond flaps into triangles ...

17 hiding the remaining flaps inside the art structure
